SORTING

TOMRA Sorting offers the widest range of food sorting and peeling equipment available in the food industry today. TOMRA supplies optical sorting solutions for a multitude of food applications, for fresh and processed food, from farm to fork! TOMRA's sorting solutions will boost your processing capacity and availability, while at the same time increasing profit, food quality and food safety.

www.tomra.com

Innovation and advanced machine design are two words normally associated with FAM. FAM has many "Firsts" to its credit-unique machinery designs that have helped processors increase production and efficiency as well as improve cut quality and cut operation costs. FAM is known for its simplified & rugged construction and all machines are designed to deliver fast thorough cleaning.

www.fam.be

CUT, CLEAN

Trust our deep expertise.

Trust us when it comes to bringing machines together to solve seemingly complex food processing challenges. We specialise in providing end-to-end solutions for food processing through exclusive alliances with global stalwarts in equipment, process and technology.

RA THI ENGINEERING SOLUTIONS

At Rathi Engineering Solutions, we design and manufacture Size Reduction Systems and Powder Processing Solutions for the Food & Spices, Pharmaceutical, Pigment, Pesticide, Cosmetic, Plastic, & other Specialty Chemical Industries. From concept to commissioning, we combine our collective experience of 100+ years in Grinding Technologies to provide the best, value oriented and fully customized Grinding Solution for over 50 different applications.

We continue to work with the leading powder processing technologists, to provide improved and forward looking solutions to our customers Grinding Needs. As a leader in Grinding Technology, we are benchmarked in process solutions for dust-free, coarse to ultra-fine grinding and mixing, sieving and classifying in Specialty Chemicals, Food and Plastics. Our team was also instrumental in bringing cool-grinding technology to India.

Rathi Air Classifying mill is one of versatile mill which provides efficient grinding, classifying and minimizes over grinding of the material; this mill also provides maximum grinding flexibility with very sharp particle size distribution.

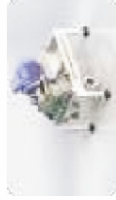

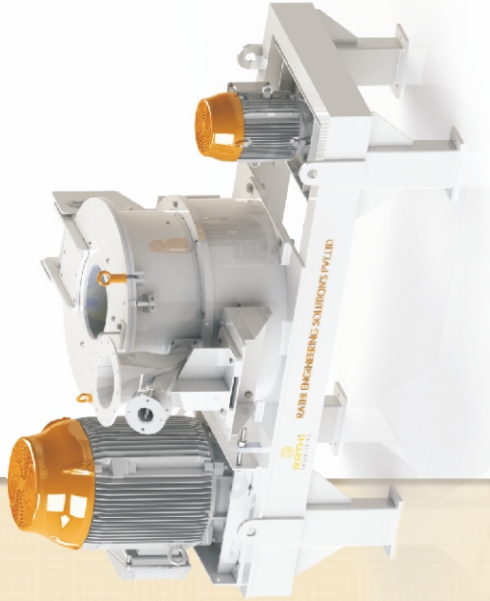

Rathi Air Classifying mill casing is available in both construction casted & fabricated, in casing Hammers mounted rotor disc provide efficient grinding & classifier wheel provides separate & minimize over grinding of material.

Designed for continuous size reduction on a wide range of applications, the Rathi ACM is the most cost-effective & durable industrial workhorse on the market. Like any machine however, the Rathi ACM requires routine inspection & maintenance to continuously operate at peak performance. Preventive maintenance carried out at systematic intervals as well as internal inspections for wear or tear will ensure longevity of the mill. RATHI ENGINEERING SOLUTIONS PVT LTD keeps all spare parts of Air Classifying Mill in stock, hence delivery of the spare parts can be done within 24hr from Rathi factory.

WE PROVIDE GRINDING SOLUTIONS ALL OVER INDIA & GLOBALLY. FOR ANY ENQUIRIES YOU CAN CONTACT OUR REPRESENTATIVE BELOW

Food & Beverage technology solutions under one roof One-stop solution for the F&B processing industry

Technology solutions along the entire value chain in a concentrated and structured form for every buyer

With its 14 previous editions over the years, ANUTEC- International FoodTec India has established itself as "the biggest platform" for suppliers to India's food and drink industry. The leading names in the food and beverage processing industry gather to witness the brand-new technologies, exchange ideas that helps drive the industry forward.

The 15th edition of India's largest and most prestigious trade fair for food and beverage processing companies takes place in New Delhi from 2-4 December 2021. www.anutecindia.com

PackEx India has seen impressive growth in exhibitor and visitor numbers year on year and has now become the largest platform for suppliers and users of packaging materials and machinery. With the focus on new product innovations coupled with new packaging solutions being the deciding factor in the current market, packaging has taken on an all-new meaning.

As the leading platform for packaging development professionals and decision-makers in the sub-continent, PackEx India brings together the best in the industry. www.packexindia.com

Food Logistics India co-located with 15th edition of ANUTEC - International FoodTec India is an unmatched platform for companies to showcase the best in logistics, cold chain, intralogistics, warehousing, material handling, refrigeration, storage and automation solutions to key decision-makers from the food and beverage industry.

The who's who of the food and drink industry meets at this show to witness the latest technologies and update themselves on supply chain trends that define logistics in Food.

www.foodlogisticsindia.com

We invite you to be a part of India's specialised food ingredients and nutraceuticals show ANUTEC - Ingredients India. In the wake of the success of the first edition, this edition of the ANUTEC Ingredients India - International Ingredients and Nutraceuticals show for the Food and Drink Industry opens its doors.

Concurrent with India's leading international food and drink trade fair ANUTEC - International FoodTec India, PackEx India and Food Logistics India at IECC, Pragati Maidan, New Delhi, India, between 2-4 December 2021.

www.anutecingredientsindia.com

Dear exhibitors, visitors and delegates,

Welcome to the 15th edition of ANUTEK - International FoodTec India and its co-located trade fairs, PackEx India, Food Logistics India and ANUTEK - Ingredients India. This year's trade fair is exceptional, since it is the first and largest physical event for the food and beverage processing industry on the Indian subcontinent after a void caused by Covid. The overwhelming response to these formats demonstrates the

fact that physical trade fairs are irreplaceable and provides the best opportunities for a Re-Start.

Koelnmesse is a proud global leader in organising prominent B2B events for the food and beverage industry across the globe and we are exhilarated at being able to organise these trade fairs in a market as diverse and vast as India. Our deep understanding of this industry and decades of experience will make this event a turning point for all of the participating businesses. Indeed, the trade fair has attracted more than 170 exhibitors and spans over 12,000 m², which means it is the biggest F&B technology trade fair on the Indian subcontinent.

Based on over a decade of credibility, together these events are proud to claim to be the most comprehensive combined format for food technology on the Indian subcontinent. The trade fairs focus on presenting the entire food and beverage processing ecosystem to facilitate buyers' purchasing decisions. And we are proud to have received support from the F&B processing industry in the form of their participation as exhibitors and with top-quality buyer communities visiting the event.

The timing of ANUTEK - International FoodTec India and the co-located trade fairs is very favourable since this is the period when we are returning to normality and the F&B sector is demanding advanced solutions due to the recent radical changes in the market. This trade fair will facilitate a fresh start for the entire industry and act as a catalyst for relaunching the market with innovative solutions and a new perspective.

I would like to express my gratitude to the All India Food Processors Association, the Association of Food Scientists & Technologists of India (Delhi Chapter), the Indian Flexible Packaging & Folding Carton Manufacturers Association, the Health Foods and Dietary Supplements Association, the Association of Ammonia Refrigeration, the All India Rice Exporters Association, the Federation of Biscuit Manufacturers of India and the All India Bread Manufacturer's Association for their generous support of the trade fairs.

Wishing all exhibitors, visitors and delegates at ANUTEK - International FoodTec India, PackEx India, Food Logistics India and ANUTEK Ingredients India a safe and successful trade fair.

Gerald Böse
President and Chief Executive Officer
Koelnmesse GmbH

It is a matter of great pleasure for us to convey our hearty congratulations to Koelnmesse for organising leading expositions in the food sector under the titles ANUTECH - International FoodTec India, PackEx India, Food Logistics India, ANUTECH - Ingredients India, with one of the best exhibition participation and visitor response. All India Food Processors' Association (AIFPA) is delighted to commend the outstanding management of these events aimed at strengthening the food value chain, in particular F&B Technology, Processing,

Packaging, Ingredients and Logistics with domestic and foreign participation. On behalf of the food industry, we send our best wishes to Koelnmesse and look forward to their rapid growth.

Indian Food Processing Industry is passing through a difficult period of technological challenges in meeting the stringent requirements of productivity, quality, packaging, environmental alignment, regulatory framework and global competition. Under these circumstances, it is very important for the industry to adopt latest technologies and use state-of-art machinery & equipment. In this context, the critical steps are to understand the technologies and explore their reliable sources. Tech Exhibitions like ANUTECH - International FoodTec India and PackEx India 2021 are designed to meet this requirement. These shows also provide live demonstration of equipment. Participation in ANUTECH will help to mobilise production efficiencies and superior product quality.

AIFPA is pleased that Koelnmesse is taking initiative to present modern options in machinery & equipment under one roof to help meet industry challenges at hand. Such technology foresight will enable India to manage its domestic food needs more efficiently and play a significant global role in the sector. India is one of the largest producers of most agri-commodities and deserves this position.

Towards this end, AIFPA and Koelnmesse are jointly organising a National Seminar on the theme, 'Technology Foresight to Modernize Indian Food Industry for a Significant Global Role' during the period of the above exhibition at the same venue on 3rd December, 2021 at IECC, Pragati Maidan, New Delhi. We invite food industry professionals, technology experts, R&D institutions, exporters and machinery & equipment designers/manufacturers to participate in the Exhibition and the National Seminar.

AIFPA sends best wishes to Koelnmesse and its associate exhibitors and supporting organisations for a laudable success of this endeavour.

Dr. Subodh Jindal
President
AIFPA

“ We at Indian Flexible Packaging and Folding Carton Manufacturers Association (IFCA) are all excited to be a part of the PackEx India show of Koelnmesse in New Delhi from December 2-4,2021.

With a sharp recovery of the economy and normalcy slowly returning to all facets of life, the PackEx India show is the first major physical exhibition in India in the last 20 months.

The turn in the economy has led to a bounce back for packaging industry which is the fifth largest sector of the Indian economy. Fuelled by rapid consumerism and demand for more convenient, innovative and sustainable packaging solutions, many industry experts foresee continued growth in Packaging, particularly, the Flexible packaging and Carton packaging industry.

The social media generation, is moving beyond the traditional demand for enhanced functional properties, shelf appeal and aesthetic values to a more sustainable and intelligent packaging. This has led the push for innovative materials and innovative manufacturing technologies play to become a key differentiator for packaging.

We at IFCA are our actively encouraging packaging innovations in end products as well as in packaging materials and packaging manufacturing technologies.

IFCA is a fifty-seven-year-old all India association of manufacturers of Flexible packaging, Cartons and Allied industries. IFCA and its members are proud to be associated with Koelnmesse India in promoting the packaging excellence in India and abroad.

Chandrasekhar Rajagopalan
President
Indian Flexible Packaging and Folding
Carton Manufacturers Association (IFCA)

It indeed is a matter of great pleasure for us to convey our heartiest congratulations to Koelnmesse for organising leading expositions in the food sector under the title ANUTECH - International FoodTec India co-located with PackEx India, Food Logistics India and ANUTECH - Ingredients India with excellent exhibitor participation and visitor response.

Health Food and Dietary Supplements Association (HADSA) commends the outstanding management of these events aimed at strengthening the food value chain, in particular, F&B Technology, Processing, Packaging, Ingredients and Logistics with large global participation.

We convey our best wishes to Koelnmesse for stupendous success in their endeavor for the year 2021 and looking forward to them gaining exemplary growth in future.

Ajit Singh

President

Health Foods And Dietary Supplements
Association (HADSA)

The food production industry has undergone radical changes in the recent past. When the world was at a standstill, this sector continued to run non-stop and attempted to meet consumers' changing demands using the available resources. Food and beverage technology providers, on the other hand, developed innovative solutions fast in response to these challenges. However, in the absence of physical meetings and demonstrations, every food producer could not explore the available technologies. The lack of a physical trade fair, such

as ANUTECH - International FoodTec India and its co-located exhibitions PackEx India, Food Logistics India, and ANUTECH - Ingredients India, was a significant loss for food producers who could not interact with the technology suppliers. As a result, this year's exhibition has become the most awaited meeting point for various food and beverage producers and their technology suppliers.

It is wonderful to be able to bring back productive physical events. The response we received from the exhibitors and visitors confirms that in-person networking is irreplaceable. We have left no stone unturned to make the three days the most fruitful days of the year for everyone.

Furthermore, in an endeavour to create a safe and hygienic experience for all stakeholders, Koelnmesse India has successfully brought a safe approach to the exhibition by introducing technology-based solutions such as the B2B portal for pre-fixing meetings, mobile application, cloud-based visitor registration enabling touchless entry and implementing international standard safety precautions.

We want to thank all partner associations, media houses, online portals, exhibitors and visitors who made it possible to witness this event. We wish all exhibitors, visitors, and delegates a happy and safe networking experience.

Milind Dixit

Managing Director

Koelnmesse YA Tradefair Pvt. Ltd.

Seminar # 1 Agenda

Present

2 December 2021

Welcome Session

10:30 am - 11:00 am (IST)

- Opening remarks by Logistics Insider and Koelnmesse India
- Lamp lighting ceremony
- Keynote address by chief guest

Gaurav Dubey
Co-founder, Logistics Insider Media
Ceremony to be performed by chief guest and other senior industry leaders
Bureaucrat from **Union Ministry of Commerce/MoFPI**

1st Panel Discussion

11:00 am - 12:15 pm (IST)

COVID-19 as the turning point for the entire Food Supply Chain

- How resilient Supply Chains kept the wheels rolling
- Redesigning the food supply chain to cut down waste
- The role of demand forecasting
- D2C brands taking matters into its own hands
- Last mile emerging as the ultimate saviour

Yashpal Sharma [Moderator] MD, Skyways Group
Ajith Gopinath, Asia Middle East Africa Procurement Lead, Mondelez International
Samir Chaturvedi, Head - Supply Chain, Haldiram's
Udyan Kohli, Head - Supply Chain, HyFun Foods
Anil Mishra, National Logistics Head (South Asia), Pladis Global

Networking Tea Break - 12:15 pm - 12:30 pm

2st Panel Discussion

12:30 pm - 01:45 pm (IST)

Technology bringing a paradigm shift in the Food Supply Chain

- Process automation: the secret ingredient for efficient storage
- Deploying emerging technologies for end-to-end traceability
- Start-up redefining farm to fork model in India
- Understanding the role of real-time & predictive analytics
- Solving compliance related issues with the help of technology

Vikash Khatri [Moderator] Founder, Aviral Consulting
Umesh Madhyan, VP - Logistics, Coca-Cola
Yatish Vatsaraj, Head Supply Chain, Drums Food International (Epigamia)
APR Abhishek, President, RSA Global

Lunch Break - 1:15 pm - 2:45 pm

3rd Panel Discussion

2:45 pm - 4:00 pm (IST)

India's Cold Chain Infrastructure: Where do we stand?

- Cold chain storages upholding nation's food supply chain
- Need for stronger reefer transportation network
- Innovations underway to reduce wastage of perishables
- Understanding the role of integrated packhouses
- Government's role to streamline the cold chain ecosystem

Satish Lakkaraju [Moderator] Logistics Industry Enthusiast
Pranav Mallik, Head Exim, Operations - Del Monte Foods
Mihir Mohanta, General Manager Supply Chain - Mother Dairy Fruit and Vegetable
Hemant S Naik, VP Strategy & Supply Chain, Naturals Ice Cream
Pramod Pereira, AGM, Cargo Service Center

Thank you ceremony - 4:00 pm - 4:30 pm

Seminar # 2 Agenda

Present

IFCA Star Awards 2021 and IFCA-Koelnmesse Seminar

Packaging - Continuous enabler for creating value

3 December 2021, IECC, Pragati Maidan, New Delhi

PROGRAM

10:00 am - 10:10 am	Inauguration and Welcome from IFCA
10:10 am - 10:25 am	Inaugural address by Mr. Suresh Gupta , Chairman - IFCA
10:30 am - 10:50 am	Keynote address by Mr. Manmeet Aneja , AVP-Head Procurement & Milk Sourcing, South Asia Region - Nestle Topic: Expectations of continuous value addition from packaging
10:50 am - 11:15 am	Mr. Pravin Nadgoundi and Mr. Subray Prabhu , Brilliant Polymers Pvt. Ltd. Topic: Food safety and sustainability program - steps ahead
11:15 am - 01:00 pm	Award distribution
01:00 pm - 01:20 pm	Mr. Anant Gadre , Managing Director, 3D Technopack Pvt. Ltd.
01:20 pm - 01:30 pm	Vote of thanks
01:30 pm	Lunch

Participation:

All award winners, IFCA members and associates are invited for the event

RSVP:

IFCA Secretariat: V Narayanan: +91-8870431651 | Milind Wagle: +91-9821127409

Seminar # 3 Agenda

Present

National Seminar on:

Technology Foresight & Financial Resourcing to Modernize
Indian Food Industry for a Significant Global Role

3 December 2021, IECC, Pragati Maidan, New Delhi

PROGRAM

Inaugural Session

02:30 pm - 03:00 pm	Registration
03:00 pm - 03:05 pm	Presentation of Bouquets
03:05 pm - 03:10 pm	Welcome address by Dr. Subodh Jindal , President, AIFPA
03:10 pm - 03:15 pm	Seminar theme by Sh. P. L. Kaul , CMD, Mariental India Pvt. Ltd.
03:15 pm - 03:30 pm	Keynote address by Dr. Pradeep Apte , Renowned Economist
03:30 pm - 03:45 pm	Inaugural address by Sh. Debashish Panda , I.A.S., Secretary, Dept. of Financial Services, Ministry of Finance, Govt. of India
03:45 pm - 03:50 pm	Vote of Thanks by Dr. Raghav Jadli , Vice President, AIFPA

Technical Session

Moderator of Seminar	Dr. Chindi Vasudevappa , Vice Chancellor, NIFTEM
03:50 pm - 04:05 pm	Dr. R. S. Matche , Chief Scientist & Head, Food Packaging Technology, CSIR - CFTRI
04:05 pm - 04:20 pm	Sh. Tapas Chatterjee , Managing Director, SSP Pvt. Ltd.
04:20 pm - 04:35 pm	Sh. Srinivas Sondur , Vice President and Head-Global Marketing, Goma Process Technologies Pvt. Ltd.
04:35 pm - 04:50 pm	Q&A Session
04:50 pm - 05:05 pm	Summing up by Dr. Chindi Vasudevappa
05:05 pm - 05:10 pm	Presentation of Mementos by Mr. Milind Dixit , MD, Koelnmesse India
05:10 pm - 05:50 pm	Closing remarks by Mr. Milind Dixit , MD, Koelnmesse India
05:20 pm onwards	Hi-Tea and Networking

RSVP: All India Food Processors' Association (AIFPA)
